**RE: UTAG PRESS RELEASE ON “DEFENDING OUR STATUTORY
VOICE IN THE APPOINTMENT OF PRO-VICE-CHANCELLORS AND
DEANS”**

Management has taken note of the press release issued by the University Teachers Association of Ghana (UTAG), KNUST Branch, dated 10th September 2026, under the above subject, following the meeting of the Academic Board held on 9th September 2026 to consider the University Statutes in alignment with the Kwame Nkrumah University of Science and Technology Act, 2025 (Act 1157).

Management wishes to clarify that, at the said meeting, the Academic Board received and considered the draft report of the Statutes Committee and made inputs to it.

The report from the Academic Board, together with the draft Statutes and recommendations, will be submitted to the University's Governing Council for its consideration, review and possible approval.

The process is therefore ongoing, and it would be premature to attribute a final institutional position to the University or to suggest that any determination has been made on the matters raised by UTAG.

Management wishes to assure UTAG and the wider University community that the consideration of the Statutes is being undertaken in the spirit of inclusiveness, consultation, transparency and respect for the University's established governance structures. The views and legitimate concerns of relevant stakeholders remain an important part of the review process and will continue to receive due consideration through the appropriate governance channels.

DR DANIEL NORRIS BEKOE
DEPUTY REGISTRAR, UNIVERSITY RELATIONS OFFICE
FOR REGISTRAR
